**DIRECTIONS FOR USE**  
Place two or three blocks in the barbecue bowl, charcoal grid if supplied or fire grate. Pile the fuel over the blocks in a pyramid shape, ensuring sufficient air space around the blocks to allow to burn with a flame, then light the blocks. For barbecues; after approximately 30 minutes, the charcoal will be covered with a fine grey ash. Carefully spread the charcoal across the barbecue. You are now ready to cook. For fires; keep the draught regulator half closed until fuel is lit, then use full draught. Never add more fire lighters to your barbecue or fire once lit. Storage: Keep Bar-Be-Quick Fire Lighters in a cool dry place away from direct sunlight, heat and all sources of ignition.
